Dear workers, consumers, students and conscious citizens,

The highest electricity rates in India are in Mumbai, where electricity is distributed by two big private companies. Clearly, the idea that privatisation is beneficial for consumers is false propaganda!

How can we combat this widespread false propaganda? By disseminating the right information!

The All India Forum Against Privatisation (AIFAP), a united platform of 97 workers' unions and people's organisations, has published an insightful booklet on the effects of monetisation, corporatisation, and privatisation on users and consumers.

This booklet explains

- How consumers will be affected by the privatisation of electricity, railways, banks, coal, other sectors
- Who suffers because of privatisation and who benefits from it
- How to save public assets that have been built using our money

Mainstream media hides this information from us. That is why, it is our duty to spread this booklet widely among all citizens!

Other languages

- Hindi: Available at www.hindi.aifap.org
- For Marathi, Kannada and Telugu booklets, please contact us at **+91 84540 18757** or contact@aifap.org.in

Many unions have distributed physical copies of the booklet among thousands of people.

You can also distribute copies with the logo of your union or organisation; please contact us for including the logo of your union or organisation on the cover page and to provide you with a ready to print PDF.

We urge you to share this booklet widely among your friends, family, organisation, and all consumers and citizens.

Let us strengthen our fight against privatisation!

- AIFAP team
