**Sub: - Notice of one day National Strike on 9th July 2025.**

Sir,

Apropos to the decision of National Coordination Committee of Electricity Employees And Engineers (NCCOEEE) the broad-based united platform of all National Federations of Electricity Employees and Engineers, the constituent of All India Federation of Electricity Employees will resort to one day strike on 9th July 2025, in full solidarity to all the central Trade Unions all over the country, and for the long pending demands of power workers and engineers of the state. In solidarity with the agitation of U.P. power sector employees all the constituents of AIFEE will hold demonstration on 2nd July 25 in all the states.

Despite of our continued personation the management has failed to discuss and to reach to an amicable settlement over the burning issue of stop privatization of Indian power sector and the long pending demands of the employees. Against privatization of Uttar Pradesh power sector all the unions of workers and engineers are agitating since last 200 days and the govt & the power sector management is playing a role of mere spectator. This reflects over the antiemployees and

antisector policy of the govt. This has compelled us to take decision of demonstration on 2nd July and one day token strike on 9th July 2025 for the following demands of power sector employees and engineers.

- 1) Stop Privatization process of Purvanchal and Dakshinanchal Nigam of Uttar Pradesh power sector.
- 2) Withdraw all vindictive actions against the agitating employees and reinstate all the terminated samvida workers. Withdraw the draconian and undemocratic executive order amending U.P.'s Power corporation service regulation.
- 3) Respect the provisions of settlement signed with the Uttar Pradesh Bijlee Karmachari Sangharsha Samittee.
- 4) Scrap antiworkers labour codes, ensure social security, work place safety for power employees. Withdraw Fixed Term Employment Provision
- 5) stop prepaid smart meter policy, installing 33 crores meters.
- 6) Stop introduction of TBCB mode in construction, maintenance of substations and transmission lines. Stop retrograded transmission Policy.
- 7) Resist PPO model in hydro power stations project.
- 8) Roll back gifts and monetization of assests of public sector specially of power grid, NTPC, NHPC under draconian NMP and various other pro corporate schemes.
- 9) Reduce the price of electricity, resolve coal supply issues and stop fraudulent coal import.
- 10) Role back privatization of public Sector Power utilities, cancel all existing private licenses and franchisees.
- 11) Fill in all vacant post of workers & engineers.
- 12) Regularise all contract / outsource workers as per seniority working in distribution/transmission & generation from last 10 to 15 years.
- 13) Implement Hon Supreme Court's Judgment of 'Equal Pay- for Equal work'.
- 14) Implement old pension scheme for all workers & engineers.

Since the management of UP power sector and the central power ministry has continued the privatization process and unilaterally implementing the privatization policy, the constituents of All India Federation of Electricity Employees will resort to one day strike on 9th July 25 from zero zero hours.

Please be treat this as notice.

Yours Faithfully

  
**Com. Krishna Bhoyar**  
General Secretary
